Washington, Oct. 13.—The tardiness of the county in responding to the second Liberty loan is causing deep concern to officials here. President Wilson and his cabinet are watching the campaign with great interest.

With half of the campaign gone treasury officials estimated tonight that not more than \$600,000,000 had been subscribed and they consider estimates liberal. It has become apparent to officials that a new and tremendous impetus must be given to the campaign if the subscription is to approximate the \$5,000,000,000 hoped for.

The whole weight of the administration is to be thrown into the balance for the rest of the campaign and a drive of dimensions unapproached heretofore to be made during two weeks that remain before the closing of the subscription books.

A new factor, calculated to hearten the hosts of workers and to galvanize the country into a realization that the most strenuous effort must be made if the big drive is to be consummated successfully will be introduced into the campaign, probably within twenty-four hours.

Notwithstanding the splendid reception given Secretary McAdoo in the West, the efforts of thousands of workers, and the most highly organized publicity

campaign ever known in the country, the daily average of subscriptions has fallen far below what officials had hoped for. The time has come, officials feel, when the people of the country must be made to realize, in a manner that leaves no doubt, that they must subscribe without further delay to the full limit of their means.

From President Wilson down, officials are understood to be united in this belief. The campaign must be given new impetus at once, it is felt, and steps to give the impetus will be taken without delay.

The \$600,000,000 estimate of the treasury takes into consideration all the "optimistic unofficial" estimates from the various reserve districts and that sum is only 12 per cent. of the \$5,000,000,000 desired.

This would leave \$4,400,000,000 to be raised within the next twelve working days, an average of \$367,000,000 a day if the \$5,000,000,000 goal is to be attained, and \$2,400,000,000, an average of \$200,000,000 a day, if only the minimum of \$3,000,000,000 is subscribed.

"Neither the average daily minimum nor maximum quota for the second Liberty bond sale set at the beginning of the campaign by Secretary McAdoo," reads the treasury announcement, "had been attained to night when the first half of the great drive came to a close."

An official estimate of subscriptions from five of the twelve reserve banks shows a total of \$525,000,000 subscribed.

BRODHEAD

It is predicted by many that day is breaking, and peace and sunshine is coming to all the world again except Old Bill Kaiser who will be cast into outer darkness. As for myself I would rather be the humblest among those who have given hope to the hopeless and happiness to the distressed of my race than to live in history as a conqueror, with my hands stained in innocent blood. But Old Bill Kaiser is sup-

posed to be right on the job and he is furnishing convincing evidence to a greater part of the world that he knows his business and attends to it in a very heartless way too. We are like the fellow who said "If any man deems death is a traitor", only we could change that to Old Kaiser Bill. As for me I wish I could vote for the annihilation. I would like to attend the execution and if I were in the firing squad I would not want to be the marksman who had the blank shell.—Our friend W.C. Hopkins, of the Copper Creek section, and the Squire in this district after the coming election, is interested in the coal business in Harlan county, having formed a company there and is opening up a mine and we hope that his company will soon be in a position to furnish Brodhead coal in abundance.

Ben Riddle visited his brother Joe Riddle in Detroit recently and while there tried to buy a car load of secondhand automobiles, but came home without a car and says that there is a shortage in second cars there.—Claude Owens, who has been in Cincinnati for the past seven months, after spending a few days with his parents here, returned there a few days ago.—Dr. W. F. Carter bought a small farm from Arthur Robinson for \$4,500.00.—Rube Cox died at his home just outside of town Monday and his remains were buried Tuesday afternoon in the family burying ground near where he lived. He had been confined to his bed for several weeks with typhoid and for a week before his death his condition was so serious that there was little hope for his recovery. Besides his widow he leaves a number of children, his father and mother and several brothers and a sister to mourn his loss. —Woodward Owens bought a small farm from Will Wiggins last week for \$500.—J. P. Watson was with his brother, W. T. Watson, in Garrard county one day last week.—R. L. Smith and Allen Hiatt sold a bunch of cattle at Stanford court last Monday week. —Mrs. J. R. Cass is with her daughter, Mrs. L. B. Hilton, at Stanford, this

week.—Born to the wife of Ed Owens, Thursday, a fine baby boy.—W. A. Carson took his son Lee to London last week and had his tonsils and adenoids removed. Dr. Pennington performed the operation. The boy is getting along very well considering the seriousness of the operation.—Mrs. Ross Hiatt came here last Friday in response to a telegram that her husband, who was visiting Mr. and Mrs. A. M. Hiatt, here, had suffered a stroke of paralysis. Mr. Hiatt's condition, while much improved, is still very serious. He is able to walk about very well, but cannot speak. They will probably be here several days before returning to their home in Louisville.—Mr. and Mrs. Walter Smith have moved from the C. L. Lear property on Main street to their home near Crab Orchard. Mr. Smith will open a garage in Crab Orchard and will likely use the Gover Livery Stable building on Main street after it is remodeled.

Jerry Brock sold a small tract of land on Negro Creek to Mrs. Elizabeth Oliver for \$450.00, also another tract to Wm. Helton for \$400.00 and bought a farm from Wm. Helton for \$550.00.—John Brock, of the Hiatt section, lost his house and contents by fire a few days ago.—no insurance.—A T. Stewart, of Paint Lick, was here last week the guest of Mr. and Mrs. A. M. Hiatt.—C. H. Friih, the defeated candidate for sheriff, is spending most of his time these days in the by-ways and rural districts urging voters to help him defeat Tip Langford, and in a very low tone of voice says he will win.—We recently received a copy of the Livingston Bulletin, owned, edited and managed by our good friend Pete Drummond, and by the way it is a pretty newsy little sheet too, and as soon as we have a quarter we can spare our name will appear on his regular mailing list.—Mr. and Mrs. Cyril Francis Herford announces the marriage of their daughter, Miss Marion Louise Herford to Huber Bane Carson on the evening of October 17th. at Tellico Plains, Tenn. Mr. Carson is the oldest

son of Mr. and Mrs. W. A. Carson, of this place, and a splendid young man, and to him and his we join his host of friends back home in wishing them a happy and prosperous wedded life.—Rev. Evans, the new Methodist Pastor, held regular services here Sunday morning and evening. We understand that he will make East Bernstadt his home. Mrs. Evans accompanied him here.—Chas. T. Riddle and Frank Catron have been in the Hoosier state prospecting. Mr. Riddle rented a large farm there and will move his family there in the next few days. These are good people and we regret to give them up.—W. B. Simpson, of Louisville, representing the Detroit Vapor Stove Co., of Detroit, was here this week with his father, Calaway Simpson.—W. H. Anderson, High Priest of Brodhead Chapter of Royal Arch Masons, and J. Mont Roberts, master of Brodhead Lodge of masons were representing the local Chapter and Lodge at a meeting of the Grand bodies in Louisville this week.—Dr. O'Bannon, of Stanford, was here Wednesday to see Hazel and Vivian Albright in consultation with Dr. Carter. Both the girls have typhoid and seemed to have taken a relapse and their condition is rather serious at present.—R. L. Smith of the Hiatt section, attended the meeting of the Grand Lodge and Grand Chapter in Louisville this week.—Mr. and Mrs. U. B. Cass will soon be housekeepers in the city of Brodhead.—A. E. Albright who was confined to his bed for several weeks with typhoid, is able to be out again, and looks but little worse for his experience.—Mrs. R. E. Albright returned from Asheville, N. C., last week where she went with her husband on account of his health and says it will be necessary for him to be in bed for six weeks. We hope that the change will do him good and that he will soon be able to return home a well man.—L. N. Bowling, John Robbins and daughter, Mildred, were in Crab Orchard Wednesday.—We are sorry to see this rain on account of Chuck Friih who is

scouring the county over in search of voters. Chuck is a good fellow, "even a tombstone will say good things about a fellow when he is down".—Every man has a perfect right to his private opinion, to keep it, to

sell it, to loan it, but it is both unwise and improper to insist that his opinion is worthy of respectful consideration.—"Chuck's opinion is that he will win"—R. H. Wilcott, of London, was here Wednesday. Bob is in the coal business and is making good too.

The Postoffice Department has
recently made an Accounting
Office for Rockcastle county
post-offices at Mt. Vernon. All the
District offices, thirty-one in
number, are now required to send
their reports to the Mt. Vernon
office and make requisitions
through that office for postal sup-
plies. The business of the post-
office in Mt. Vernon has grown
rapidly in the last few years.

The United States is to get the
benefit of British troubles with
labor during the war through a
loan of four members of the Min-
istry of Munitions who have been
in this country four weeks in
conference with officials at Wash-
ington. At the request of the
Council of National Defense the
English experts will visit the
principal cities of the East and
and Middle West and confer
with employers and labor leaders.

The Brass Band of Sue Bennett
school, London, will furnish the
music for the school fair, to be
held here on October 27th.
Saturday week should be a big
day in Mt. Vernon, when every
section of Rockcastle should be
represented. There should be at
least 1500 children in the march
from the Graded school to the
fair grounds. Parents and
Friends of education should all
be interested in this event.

SPECIALIST

YOU MUST HELP

The country needs men, and
the men are giving themselves—
your son your brother your com-
panion.

The government needs money
to feed, to clothe, to shelter, and
we hope to bring these men back.

You can help, you must help,

erty bonds—buying them until
it hurts and then buying more.

SOME NOBLE EXAMPLES.

As everyone knows, Tammany
is corrupt. It may not be as
corrupt as the political machine
in Pulaski county, but it is al-
most. This year the Tammany
Democrats have nominated a
Machine Democrat for Mayor of
Greater New York. The Re-
publicans nominated Mr. Bennett
John Purroy Mitchell, the pres-
ent Mayor is a candidate to suc-
ceed himself as an independent
Democratic. Our Bull Moose
friend will take justice: ex-Pres-
ident William Howard Taft; ex-
President Theodore Roosevelt;
Charles Evans Hughes, the Re-
publican candidate for President
last year, and Senator Elihu
Root, all Republicans of Nation-
al reputation, are all heartily
supporting Mr. Mitchell, the in-
dependent Democrat for Mayor,
of Greater New York. It looks
like the fifteen hundred or more
of us Republicans who this year
are supporting some of our Dem-
ocratic friends and neighbors
for some of the County Offices,
are in very good company. — Re-

The coal situation is becoming
alarming in many sections of the
country and especially in the
larger cities. Coal speculators
and grafters, big and little are
responsible and if there is not
some relief before the severe
winter comes, many are they
who will suffer.

The pledge signing week has
been changed and will now
be undertaken October 28th to

was made on account of the Lib-
erty Bond week being more press-

of the whole Nation.

We are sending our boys, man
for man, with the rest of the Na-
tion; they are drilling just as
hard as any of the rest; they will
be subject to the same danger as
the rest; we will pay war tax in
proportion to our wealth just the
same as other communities, but
are we subscribing for Liberty
Bonds and supporting the Red
Cross as loyally as we might? The
inference is, we do only what we
are forced to do.

The talk about Liberty Bonds
being a good investment and
somebody should buy them wool
clothe and feed soldiers; neither
will promises fire guns. The time
is now here when money talks.

The war being unpopular does
not make it less a war or less ex-

OH FAIR MAIDENS OF THE
EARTH.

Be not deceived. On fair maidens
of the earth.

For man come and devour your
worth.

He tries hard your heart to win,
He believes you are weaker
than him.

He comes a singing like a jay,
He believes you are his prey,
And then, what can you say,
He takes your pride and worth
away.

You'll say, what have I done,
Oh me, the world is shun,
His deeds you would adore,
If his thoughts you could im-

Oh fair maidens of the earth,
Don't let your conscious betray

The Beautiful Gulf Coast

THE BEAUTIFUL THING about the Gulf Coast between New Orleans and Pensacola, is that it is a real playground, summer or winter—a playground for northern folk from November to May, and for Southern folk during the summer months. You can ask for much more of pleasant nature than has been expended on the Gulf Coast between New Orleans and Pensacola. There are pine woods, forests of living oaks, all moss hung and mysterious, long stretches of winding, shaded roads, woodland paths, quiet southern hamlets and modern resorts teeming with gayety and active life, lovely retreats where you can swing a hammock all day and dream in the open air. All these with sparkling water, the beach, the surf, boating, fishing—anything and everything that calls for the salt water cure.

GOING SOUTH on the Louisville & Nashville Railroad, after you leave Ma'ine, it is impossible to escape the infection of joyous living, even if you wanted to do that. At every stop through of people are going and coming—youth and age alike, getting on or off the trains, laughing and chattering, sunny, fragrant and agreeable. It is moreover a place of some natural beauty, in a surrounding of lovely comfort or of luxurious ease, whichever you prefer. It is a locality of ancient and honorable traditions and the natives are descended from holders of the soil since the first days of the white settlement. They make you welcome with a sturdy, southern hospitality, and have put at your disposal the best they have had to offer. Every resort and every old plantation here is shaded by ancient ancestral oaks and grown over with trailing vines, rosehedge and peonies; and they all look out over the Gulf waters, at the dazzling waves, the sea-lining sails, the beach and the surf. If you can't find happiness down there in the golden sunshine and among the countless diversions and attractions of that playground, don't search in the winter expecting to find your "Promised Land." For you'll find only your humblest of symptoms. No Florida climate and greater comfort is not to be found. The winter climate is ideal, not too comfortable warm, but moderate and bracing, putting snap and ginger into the system.

TOURING along the Gulf Coast is one of the ways travelers take to find their particular choice—and for this purpose the train service of the Louisville & Nashville Railroad is convenient. You can stop everywhere, beginning at Mobile, and stay a few hours, a few days or as long as you wish. It is a fascinating vagabondage that will bring you eventually to the place of your ultimate desire. You can also, if you choose, ship your motor car to Mobile and go in for regular touring along the Gulf. The roads are all good and the scenery is fascinating in the extreme. It lends its background of fact to a long list of interesting tradition and romantic legends concerning this locality, and the "atmosphere," while wholly American, has the foreign flavor in sufficient degree to give it diversity and variety. Topographically, the coast lies low and undulating, rising gently toward the hinterland, which is forested with pines, broken in the distance by high and precipitous mountains. The shore line is much indented, the numerous bays, "bayous," "creeks" and lakes, lying in a seemingly endless and all surrounding waterway. Lying off the shore is a line of islands, forming the outer bulwark of Mississippi Sound, and fringing this area the resorts that have been famous since pre-revolutionary days—the towns which began as of the French colonies, began under the brothers de Bienville and d'Orbigny.—Advertisement.

Wayside Notes

(Continued from 1st page)

Vandalia railroad. Making good of course like all Rockcastle boys away in other lands. He and his brother Clay make their headquarters with their brother Jim in East St. Louis.

Wm. H. Spradlin, who came into Mt. Vernon about 1867 as a civil engineer with the location of the L. & N. and who married a daughter of Judge John M. Fish, near Buckeye, writes from his old home at Gallatin, Tennessee. He has been engaged these many years in engineering department of various railroads and during last few years has had considerable experience in highway work in his and other Tennessee counties.

And here comes our old friend Jim W. Gentry, son of H. C. Gentry, now located at East St. Louis, Illinois, with a pleasing report of his work. He is in the employment of the L. & N. and getting along nicely. He is good enough to say:

"I appreciate your work as being a man with the nerve and backbone to stick to the proposition you brought out in 1913 to put a highway thru the Cumberland lands something that will bring untold benefits to our people. Possibly many of our own people can't understand today what Jim Maret has done, but we boys off at a distance see, understand and appreciate what

the old fellow has done for the benefit of his adopted county. There should be a mighty kindly feeling for the Boone Way man not only in Rockcastle but over the entire route of Boone Way from Boone Park, N. C. to Louisville and Kenton, Ohio. I believe the boys will stand by you should you ever get in need."

That bold, bad man of Livingston, Will Owens, who of late, only occasionally drops a few lines to Signal, in news items of his burg, ventured from the "trenches" and with a few, then immediately retreated to cover beyond the firing line. Yes we have the goods on the sly old rascal but wish to keep him in fear and trembling for a short time but the day of reckoning is close to hand and what will be done for him is more than a plenty and then some more added.

Among the letters from girls and boys of Rockcastle now located in other climes is one from John H. Fish, a son of Hiram Fish, deceased, his mother is now Mrs. R. B. Mullins of Richmond. He learned the telegraph business at Fountain Head, Tennessee and has held positions with the L. & N. during many years past, at Nashville, Knoxville, in Blue Ridge mountains and other points. He is today assistant master of trains at Lexington, in western part of Kentucky, like other Rockcastle boys, he has made good. I wish

the Signal had room to publish his splendid letter in full.

The spirit of the old original Commercial Club still lives and no doubt it will see to it that the best element will be elected to carry on town affairs. No backward step should be taken by our citizens. The little old town has made rapid strides during few years and will continue in the same line. It has a greater mileage of concrete sidewalks, according to number of population, than any town within our old Commonwealth, and that's going some.

Mt. Vernon's future seems bright and no doubt will continue to improve as the days go by, with such men interested in affairs as, Cooper, Baker, Sparks, Fish, Young, Krueger, McBeck, Poynter, McKenzie, McFerron, Griffin, Durham, Adams, Thompson, Lovell, Centry, Williams, Bethune, Owens, Mullins, Bryant, Brown, Pinkerton, Albright, O'Mara, Franklin, Noe, McKinney, Miller, Pennington, Davis, Bowman, Cummins, McClure and others who desire progress. The Boone Way man is looking to you and feels confident each will do his duty.

Girls and boys, (no age limit, all are boys and girls till swallowed by the grave), of Rockcastle, now located at any old point on the face of the globe of ours, are asked to write the Boone Way man at Winchester, Ky. Tell him what line of work you are following; time you left Rockcastle and any other particulars in connection with your past and present experience. We are trying to make this column interesting to home-folks and those who have wandered to other climes.

"At 20 a man is anxious to show his knowledge, at 60 he is more than anxious to conceal his ignorance."

Winchester's speed limit signs posted on all roads at city limits reads:

"Speed limit 15 miles. Dufferin. Comagran."

Another death from automobile accident occurred here Friday last. Speed. This is the sixth death to occur in this county since May 24th, from auto loss. Pretty heavy toll.

Prices for spirituous goods, have taken astronomical lunge. Straight goods are now \$1 a pint, at Lexington. Winchester users pay \$1 round trip train fare to that racing town and pay the difference for their wet goods. Within six months it is predicted \$3 a pint will be asked and of course paid by those who think they must have it.

The bill of fare at one of the restaurants here reads: "Eggs in cents straight. Tomato sauce 5 cents extra." The next issue of the menu card will probably add: "Salt, 3 shakes 1 cent, pepper ditto, patrons not allowed to tap on bottom of salt and pepper boxes with thumb or fingers when in an inverted position, (the container not the patron). Vinegar 1 cent a teaspoonful; one toothpick free to each patron where he spends 25 cents at the table or counter. Paper napkins 2 cents each, not to be carried from the premises. Bread crust 6 cents a foot line measure. Country ham 2 cents a small; goose wader slice of same 14 cents, with bread 21 cents, mustard extra."

While every good solid citizen believes and feels in his heart that the shortage of the distilleries in the making of whiskey is a great thing for the county, and no doubt it is it surely opens up the temptation for the coffee pot moonshine folks, in which line there will surely be something doing. It is to be hoped the makers will forego the use of potato to "put on a head". Its bad enough to at least without putting in the lye to burn out the stomachs of the poor wretches who use the output. For the love of Mike or any give it to em straight, without bead or trimmings. The first run which will probably be made will be by John Brown's old friend Tom B. who will bring his first output to J. W. B. for analysis, as to its purity. Tom is conscientious.

The new depot, under construction, at Berea, is a beauty. Mrs. Dan Moren, after a visit to her mother at Harlan and her little son, J. J. Maret, at "Brook

land Farm", near Level Green, returned to Fleming, her home in Letcher county, last Friday, stopping between trains at Winchester to see the Boone Way man.

Charles B. Henderson, writes from Winslow, Arizona. He, like many other native sons of Rockcastle who have wandered away to other scenes, means to spend their latter days on the soil of their nativity. Many of them would return earlier if there was employment here for them.

"I left Mt. Vernon Oct 21, 1901. Since then have been variously employed in train service as brakeman, conductor, switchman and yard master for about 13 different railroads. Assisted in building the Florida East Coast over the Keys. Also put in some hard ticks on the Western Pacific while building through the Feather river Canyon. Hired out here on the Coast Line of the Santa Fe as work train conductor while double tracking the 3rd district between Winslow and Seligman Arizona; liked the job fine and staid here. Been employed here since March 1st 1911, the longest time I ever staid in one place since leaving home. I have run across L. & N. men in old Mexico, Canada and all over the south west.

There is one other L. & N. boy here besides myself, J. T. Farris, from Rockhold, James, while a very small boy. I well remember the first issue of the Signal it was then the Mountain Signal, and the office was over J. E. Vowels store, the office was in charge of a man named Fox. I don't think I have missed reading many copies since the first one. I have had the paper sent me in Florida, Tennessee, Texas, Missouri, Nevada, Arizona and New Mexico and have made a lot of short stands where I merely had it forwarded. The mountain people are my people, the kind most hospitable in the world and it is my ambition to make my stake and come back to Rockcastle to spend my declining years."

MRS. SMITH RECOMMENDS CHAMBERLAIN'S TABLETS.

"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.
